He could not believe his sister's childhood friend was singing her heart out to be the next Icon. He was not going to let her do it. He had won the Icon title previously, but their rules and restrictions made him an unhappy and desperate man. She was not going to be imprisoned like he was. So he voted no and broke her heart. This is an account of their rocky love story. Really enjoyed reading about the "Tangled" group of stylists again and Tiffany and Random's love story. 10 of 10 people found the following review helpful. Great story..but not yet over! By Kindle Customer Ok, love this series, I don't even mind that There's still mysteries to be solved. Only problem I have is the waiting for the next book in 2014! I will forget by then. Recommend to other readers if you have not started wait until all the series are available then read them in order...not a stand alone book, but really great plots! 1 of 1 people found the following review helpful. A real carnival of a read. By Customer To start I have to say I love to sing but dislike most reality show (except SYTYCD). While I tend to really enjoy the artists who come out of shows like American Idol, I dislike the show itself and know I am in a minority on that opinion. ok now on to this book, it is a emotional rollercoaster that had my crying, laughing out loud and "singing along" (ha). The author has a way of hooking you on the characters even if you can't understand what they are doing, they just feel real as if you could walk in to Tangled for a new look and actually have a conversation with Tiffany, Sinclair or Felicia. I said this in my last review of the first in this series, but I love that the pov changes are all clearly marked at each switch! This book is just Fantastic and I cannot wait for the next one to come out so I can devour it too! I suggest anyone with a yen from contemporary romance with a splash of suspense give this series and author a try, I don't think you'll regret it.

She has a dream... Twenty-one-year-old hairstylist, Tiffany Banks, thought her life was planned out until her coworkers talk her into auditioning for American Icon, a popular reality-singing competition. Unfortunately, her dreams of stardom are threatened when one of the judges, a notorious bad-boy rock star, Ransom, is hell-bent on standing in her way. He'll stop at nothing to get what he wants... After winning American Icon four years ago and signing away his soul, Ransom's life became a blur of booze, concerts, and women. Then, when pressured into becoming one of the judges on the show to save his career, he finds himself face-to-face with Tiffany, his sister's beautiful and naive friend, he takes it upon himself to stop her from making the same mistakes he did, and screwing up her life, no matter the consequences.
